

## Safety Stand Down Series

Please welcome back Aviation's, Mr. David Perdue. David's "TOLD" course will help you understand the fundamentals, to a greater degree than what is taught in GA today of just density altitude and weight. Beyond the simple, typical altitude and temperature, Aviation uses the same training given to all USAF pilots and goes in-depth on the various affects on aircraft.

**Directions:** Please utilize the map link.  
Park in rear and proceed to the 2nd floor.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.  
Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
